MEMBERSHIP INFORMATION

Gas Processing Association Canada (GPAC) is a not-for-profit organization formed to promote the interaction and exchange of ideas and technology to those involved with the hydrocarbon processing industry. We are made up of members that are directly and indirectly involved in the extraction, processing, storage, transportation and marketing of Natural Gas, Natural Gas Liquids and associated products

Our goal and vision is to provide added value to the Canadian gas market by being a forum for:

- **Expanding technical knowledge**
- **Sharing operational best practices**
- **Providing input into legislative and regulatory issues**
- **Industry networking**
- **Collectively representing the gas processing industry in Canada**

What membership offers you:

In addition to free-to-member events such as Gas Processing 101 workshops, a GPAC membership provides discounted prices on conferences, technical sessions and other association activities. Members also receive the Energy Processing Magazine 6 times per year and preferred pricing for advertising in the publication. In addition members will receive a discount on the GPSA Engineering Data Book/CD Set.

PROFESSIONAL DEVELOPMENT

Gas Processing 101 Workshops

Whether you are new to the industry, wishing to enter the field, transition to a different segment or just interested in learning about more about a particular topic, GP101 is designed to provide a comprehensive overview of the topics important to the Gas Processing industry. The course is presented by a collection of industry experts who provide theoretical and practical basis for where the subject fits into the industry as a whole. Lectures are held throughout the year and can be attend in person or through a web broadcast.

These sessions are offered complimentary to GPAC members only, providing thousands of dollars in value.

Technical Luncheons

GPAC aims to bring awareness to topics surrounding the gas processing industry. Technical Luncheons provide a forum to gather and improve understanding on a developing area of our industry. In addition, as new projects come up, GPAC will use Technical Luncheons as New Project information/update sessions and will bring project Sr. Leadership to present on the status and the details of the project(s).

Access to Leading Edge Industry Research

The GPA cooperative research program has received worldwide recognition because of its successes and benefits to the global midstream industry. Over the past 40 years, a vast amount of data has been collected from GPA-led research efforts. Membership gives you access to research and personnel to guide you through your project.

NETWORKING OPPORTUNITIES AND PARTICIPATION

Leadership Opportunities

Join a committee and strengthen your leadership skills while playing a key role in your profession and the industry's future. Discuss ideas with peers and stay abreast of current issues facing the industry. GPAC has a number of committees in which you can explore your specific areas of interest.

Email: info@gpacanada.com Website: www.gpacanada.com

Mentorship Opportunity

Alumni of the CGPA, CGPSA and GPAC organization, who also make up a portion of the membership, provide advice and guidance to directors and members and maintain contact with all interested past members. This group has a minimum of 20 years related industry experience which provides valuable input and mentorship opportunity for 'newbies' in the industry.

Networking Opportunity

From golf to curling to meeting new industry people at one of our sessions, GPAC offers a great opportunity for industry professionals to expand their network.

INDUSTRY RECOGNITION

Corporate Development

Facility Owner/Operator Benefits

- Greatly enhances the sharing of operational information with other local processors, providing the potential for more reliable and economical operations.
- Facilitates the sharing of safety information thereby providing for a safer industry.
- Offers a vehicle for the sharing of environmental information, thereby providing a way to protect the environment and avoid penalties for non-compliance.
- Concentrated contacts with suppliers, saving the time of seeing them individually at various times and various places.
- Opportunities to meet new people from different companies will allow you to get to know your counterparts on a more personal basis.
- Enhances the opportunity of making contacts to facilitate on-going negotiations or future deals.

Service Provider and Supplier Benefits

- From a new business to a product launch, GPAC offers the perfect platform to get your message heard. Yearly, over 1000 industry professionals participate in GPAC's events so you are sure to get your message heard.
- Unique access to operating decision makers, enhancing their use of time because they are able to contact many decision makers at a single function.
- Suppliers stay in touch with what is happening in their area and the industry.

Awards

The GPAC Awards Program meets an obligation to support the development of the gas producing and processing industry. These awards are tangible, public evidence of appreciation by the industry, the association and industry colleagues to those individuals who have contributed significantly to the advancement and development of the light hydrocarbons industry.

Scholarships/Bursaries

The Gas Processing Association of Canada (GPAC) is proud to provide funding to our future leaders. Since 2007, GPAC has made awards, scholarships and bursaries available to deserving students enrolled at SAIT, NAIT, the University of Alberta and the University of Calgary.

GPAC MEMBERSHIP APPLICATION

| Membership Dues | Regular | **G.A.S. Alumni | ***Student |
|----------------------------|-----------------------|------------------------|-----------------------|
